

## CONTENTS Volume 63 1993

### Volume 63 No. 1

<b>The relation of proton motive force, adenylate energy charge and phosphorylation potential to the specific growth rate and efficiency of energy transduction in <i>Bacillus licheniformis</i> under aerobic growth conditions</b>	<b>1</b>
B.A. Bulthuis, G.M. Koningstein, A.H. Stouthamer, H.W. van Verseveld	
<b><i>Myxozyma vanderwaltii</i> sp. nov. (Candidaceae), a new yeast species isolated from a flower of <i>Protea repens</i> (L.) L.</b>	<b>17</b>
F. Spaaij, G. Weber, M.Th. Smith	
<b>Mycelial elongation and sporulation of two fungi on amended media in light or dark</b>	<b>23</b>
V.M. Russo, A.J. Pappelis	
<b>The wall associated lipoteichoic acid of <i>Streptococcus sanguis</i></b>	<b>29</b>
S.D. Hogg, L.A. Old	
<b>The use of neural networks to aid in microorganism identification: a case study of <i>Haemophilus</i> species identification</b>	<b>35</b>
M.J. Kennedy, M.S. Thakur	
<b>Why it pays for bacteria to delete disused DNA and to maintain megaplasms</b>	<b>39</b>
A.H. Stouthamer, S.A.L.M. Kooijman	
<b>The growth kinetics of <i>B. subtilis</i></b>	<b>45</b>
A.L. Koch	
<b>Regulation of the expression of the <i>Pseudomonas stutzeri</i> <i>recA</i> gene</b>	<b>55</b>
B. Vosman, P.J.G. Rauch, H.V. Westerhoff, K.J. Hellingwerf	
<b>Anaerobic fungi and their cellulolytic and xylanolytic enzymes</b>	<b>63</b>
M.J. Teunissen, H.J.M. Op den Camp	
<b>Effect of bacterial lipopolysaccharide on the content of lipid peroxidation products in lungs and other organs of mice</b>	<b>77</b>
D. Nowak, T. Pietras, A. Antczak, M. Król, G. Piasecka	
<b>Biosynthesis and function of trehalose in <i>Ectothiorhodospira halochloris</i></b>	<b>85</b>
K. Lippert, E.A. Galinski, H.G. Trüper	

**Special Issue : New Directions in the Systematics of Yeasts and Yeastlike Fungi****Guest Editors: C.P. Kurtzman & G.S. de Hoog**

<b>Editorial</b>	<b>93</b>
<b><i>Kluyveromyces</i>: systematics since 1970</b>	<b>95</b>
M.-A. Lachance	
<b>Evolution of black yeasts: possible adaptation to the human host</b>	<b>105</b>
G.S. de Hoog	
<b>The distribution and taxonomic value of fatty acids and eicosanoids in the <i>Lipomycetaceae</i> and <i>Dipodascaceae</i></b>	<b>111</b>
A. Botha, J.L.F. Kock	
<b>Catabolism of benzene compounds by ascomycetous and basidiomycetous yeasts and yeastlike fungi: a literature review and an experimental approach</b>	<b>125</b>
W.J. Middelhoven	
<b>Electrophoretic karyotyping as a taxonomic tool in the genus <i>Saccharomyces</i></b>	<b>145</b>
A. Vaughan-Martini, A. Martini, G. Cardinali	
<b>The use of karyotyping in the systematics of yeasts</b>	<b>157</b>
T. Boekhout, M. Renting, W.A. Scheffers, R. Bosboom	
<b>Systematics of the ascomycetous yeasts assessed from ribosomal RNA sequence divergence</b>	<b>165</b>
C.P. Kurtzman	
<b>Phylogenetic relationships of <i>Cryptococcus neoformans</i> and some related basidiomycetous yeasts determined from partial large subunit rRNA sequences</b>	<b>175</b>
E. Guého, L. Improvisi, R. Christen, G.S. de Hoog	
<b>The expanding realm of ballistosporous yeasts</b>	<b>191</b>
T. Nakase, A. Takematsu, M. Hamamoto, M. Takashima	
<b>Phylogenetic analysis of basidiomycetous yeasts by means of 18S ribosomal RNA sequences: relationship of <i>Erythrobasidium hasegawianum</i> and other basidiomycetous yeast taxa</b>	<b>201</b>
J. Sugiyama, S.-O. Suh	

**Volume 63 Nos. 3/4****Special Issue : Kinetics, Dynamics and Physiology of Microbial Growth****Guest Editors: T. Egli, C.A. Mason & M. Snozzi**

<b>Editorial and acknowledgements</b>	<b>211</b>
